How much does it cost to rent land for photovoltaic panels to generate electricity

Overview

The short answer is, “it depends,” but solar lease rates (also called “rents”) typically range from about \$450 to \$2,500 per acre, per year—though can go much, much higher. This article looks at the factors that influence the rates a solar developer may offer for your land. In short, Solar farm land lease fees depend on farm size, location, and lease period. The closer land is to an electrical grid, the more valuable it becomes.
