Overview of the Cabinets IBBS200D IBBS200T. With the Software Defined Radio (SDR)technology, the RRU3928 supports the dual-mode operation of any two modes of GSM, UMTS, and LTE through software configuration modification. RRU3928 has a dual-transmitter and dual-receiver structure, which supports higher output power and carrier capacity. Built along the lines of a Micro-Grid Energy System (MGES), it comprises four elements – power generation, control, monitoring, and energy storage. Power generation utilizes a variety of sources.
