

**PIENAAR ENERGY (PTY) LTD**

# **Huawei Andorra Air-Cooled Energy Storage Project**

## Overview

---

This project, selected through an international tender with six proposals, will be the largest energy storage system in Central America once operational by the end of 2025. Source: PV Magazine LATAM [pdf] Costs range from €450–€650 per kWh for lithium-ion systems. How important is Huawei smart PV as an industry benchmark?

Chen Guoguang, Chief Operating Officer of Huawei Digital Power and President of Huawei Smart PV, said that the significance of this project as an industry benchmark is demonstrated in the following four aspects: (1) It is the world's largest. Andorra, a small but ambitious nation nestled in the Pyrenees, is rapidly emerging as a testbed for energy storage solutions that balance mountainous terrain with renewable energy goals. No matter nights, rainy days or unexpected blackouts off the grid, the solar power is always at your. Here, we provide comprehensive information about solar photovoltaic solutions including mobile power stations, solar containers, solar inverters, and energy storage systems. Our professional solar solutions are designed for commercial, industrial and remote applications worldwide. The company will provide a 1,300MWh BESS to the Red Sea Project, a huge resort under construction on the Saudi.
