Huawei Japan Energy Storage Support Project

Overview

TOKYO -- Huawei Technologies will begin selling large-scale battery systems for renewable energy storage in Japan in March, Nikkei has learned, seeking to tap growing demand as the nation transitions away from fossil fuels. In 2022, Kuma Village in southern Kumamoto Prefecture, Japan, was severely damaged by torrential rain. Rebuilding homes after the disaster presented a significant challenge and posed the question: Should the village stick with traditional energy or go green with sustainable solutions?

Kuma Village. Sun Village and Huawei signed a memorandum of understanding (MoU) on . Under the MoU, Sun Village will target procuring 500MWh of battery storage systems from the Chinese manufacturer. Driving revival with digital power in rural Japan (Feb. (Image: i-mobile) I-mobile plans to commission its first grid-scale storage facility in July 2025, the company said on Ma. Energy storage systems play a crucial role in balancing supply and demand in power grids, particularly where renewable energy sources like wind.

Huawei Japan Energy Storage Support Project

Huawei enables zero-carbon revival of Japan's Kuma Village

This initiative incorporated self-consumption distributed PV and energy storage systems into the reconstruction of public housing and welfare facilities.
