## Overview

---

Iran is in talks with several leading Chinese companies to develop solar power plants and battery energy storage systems (BESS) as part of its strategy to increase renewable energy capacity, a senior official from the Iran Power Generation, Transmission and Distribution. Iran is in talks with several leading Chinese companies to develop solar power plants and battery energy storage systems (BESS) as part of its strategy to increase renewable energy capacity, a senior official from the Iran Power Generation, Transmission and Distribution. Recently, Jafar Mohammadi Nejad Sijaroudi, Deputy Director of Investment at Iran's Renewable Energy and Energy Efficiency Organization (SATBA), confirmed that the country has issued construction permits for nearly 100 GW of solar power projects. Iran announced on Monday one of the largest single expansions of renewable energy in its history, unveiling 445 megawatts of new capacity as part of an accelerated national push toward solar and wind power. Blessed with an average annual solar irradiation of 4.5 kWh/m<sup>2</sup> and up to 2,200 kilowatt-hours of solar. SUNROVER has secured Iranian ministerial support for grid-stabilizing solar-plus-storage projects following leadership meetings and technical presentations in Sabat. Iran's Ministry of Renewable Energy and Minister of Energy have endorsed SUNROVER's technical performance and project deployment. Aug- SUNROVER has commenced a significant push into Iran's Renewable Energy market, with its operations and engineering team touching down in the country on August 16th. Demonstrating immediate initiative, the team wasted no time initiating crucial customer dialogues, engaging in.
