

PIENAAR ENERGY (PTY) LTD

Is a mobile power bank safe for home use

Overview

To use portable power banks safely, always buy from reputable brands that meet safety standards. Don't overcharge devices or leave them unattended while charging. While I will probably never own another powerbank charger in my life—waking up to your bed on fire is traumatic, let me tell you—experts argue that there are safe ways to use a powerbank as long as it's treated with respect. “A power bank was not intended to be a dangerous device,” explains Gene. Yes, power banks are generally safe for devices. But, there are factors to consider. Safety standards and certifications prevent and won't harm you or your devices. However, like with any technological gadget, they pose hazards if not utilized correctly.
