Is it OK to connect photovoltaic panels directly to the grid

Overview

Solar panels make DC (direct current) power. These two types are totally different! If you try to plug DC into an AC system, it won't work at all. Even worse, it might cause a fire or break your things. Professional Installation is Critical: Grid-tied solar systems require licensed electricians and multiple permits, with the interconnection process typically taking 2-8 weeks and costing \$200-\$2,000 in fees alone. Always refer to the NEC code in effect or consult a licensed electrician for safety and accuracy. The grid needs power at a. To connect solar panels to the grid, you need to install a bi-directional meter on your home.
