JinkoSolar 630 PV Panel Size

Overview

With dimensions 2465 × 1134 × 30 mm, weight 34.0 kg, strong mechanical ratings (5400 Pa / 2400 Pa) and bankable warranties (12 years product / 30 years performance), it's ideal for high-yield utility and commercial installations. Better light trapping and current collection to improve module power output and reliability. Excellent Anti-PID performance guarantee via optimized mass-production process and materials control. High salt mist and ammonia resistance. 0 technology has better reliability. cal) and snow load (5400 Pascal). Jinko. The Jinko 630W Solar Panel from the Tiger Neo 66HL4M-BDV series combines N-type monocrystalline technology with a dual-sided power generation design, making it one of the most advanced bifacial solar modules available.
