

## PIENAAR ENERGY (PTY) LTD

# Kenya battery performance

## Overview

---

The KeEBI Baseline Report provides a data-driven analysis of Kenya's electric vehicle (EV) battery sector, highlighting key trends, challenges, and opportunities in battery lifecycle management, circular economy practices, and state-of-health (SOH) monitoring. As a federally owned enterprise, GIZ supports the German Government in achieving its objectives in the field of international cooperation for sustainable development. With EV registrations surging fivefold. KenGen's recent launch of a 1.16 megawatt-hour (MWh) Battery Energy Storage System (BESS) in Nairobi came with all the typical trimmings of a milestone event. This facility addresses key challenges by offering local battery testing, analysis, and reconditioning services, which were previously. NAIROBI, Kenya, Feb 3 - Kenya has renewed its call for faster deployment of solar energy and battery storage as Intersolar Africa 2026 officially opened at the Sarit Expo Centre in Nairobi, bringing together policymakers, investors and clean energy players from across Africa and beyond. Its implementation will support the creation of green jobs, reduce dependence on fossil fuels, and enhance the competitiveness of Kenya's economy while safeguarding the development of this Policy. It is my expectation that this Policy will guide Kenya's transition to a.
