

**PIENAAR ENERGY (PTY) LTD**

# **Large-scale energy storage in Bhutan**

## Overview

---

With hydropower providing 80% of its electricity, Thimphu's facing a modern dilemma: how to store surplus monsoon energy for dry winters. The Thimphu Power Storage initiative, launched in 2023, aims to solve this through cutting-edge battery systems. But wait, isn't Bhutan already. Bhutan is entering a new era of clean energy with major commitments from Adani, Reliance, and Tata to develop large-scale hydro and solar projects across the kingdom. The combined ventures — including Adani's 570 MW Wangchhu, Tata's 600 MW Kholongchhu, and Reliance's 500 MW solar farm — are set to. In 2022, Druk Green installed solar+storage systems at 8 high-altitude schools: Bhutan aims to triple energy storage capacity by 2030, focusing on: Want to explore storage solutions?

Contact our energy specialists: 📞 +86 138 1658 3346 (WhatsApp/WeChat) ☐☐ [email protected] What storage. As Bhutan accelerates its transition to renewable energy, photovoltaic (PV) systems paired with energy storage are emerging as game-changers. This article explores how solar energy storage solutions address Bhutan's unique energy challenges while supporting its carbon-negative status. Heating and transportation are two major arenas with tremendous potential for the adoption of renewable energy within their.

## Large-scale energy storage in Bhutan
