

PIENAAR ENERGY (PTY) LTD

Latest policy updates on photovoltaic energy storage bases

Voltage range:691.2-947.2V

>6000 cycles(100%DOD)

Rated battery capacity:
216KWH (customizable)

EMS communication:
4G/CAN/RS485

Overview

September 2025 brings major US solar policy shifts, from ITC guidance and tariffs to state battles over net metering, storage, and permitting. As the United States grapples with shifting political winds, developers in the distributed solar and storage market are facing a potential policy storm. The confluence of an uncertain future for the Inflation Reduction Act (IRA), escalating import tariffs and evolving state-level responses threaten. — Today the Solar Energy Industries Association (SEIA) is unveiling a new policy agenda that details the critical actions that local, state, and federal leaders must take to strengthen the reliability of America's electric grid with solar and storage technologies. As the Trump Administration. Solar policy - The U.
