

PIENAAR ENERGY (PTY) LTD

Liberia solar pv

Overview

West African nation, Liberia is set to inaugurate its first large-scale solar power plant in October 2025, a key step in the country's energy supply and reliance on hydropower. The initiative aims to expand access to reliable and affordable electricity across West Africa. Experience non-stop electricity flow with our Lithium, Gel, and Flooded battery solutions. Keep your power running even during grid outages. Construction is underway on. The Liberia Electricity Regulatory Commission (LERC) has issued the country's first Solar Photovoltaic (PV) Installer License, a move regulators say will bolster safety, professionalism and investor confidence as Liberia's solar market expands.
