

PIENAAR ENERGY (PTY) LTD

Libreville folding solar panel manufacturer

Overview

PowerFilm's proprietary manufacturing provides custom amorphous silicon panels that work in any light environment, including the indoor, industrial lighting of many IoT sensor applications. LZY offers large, compact, transportable, and rapidly deployable solar storage containers for reliable energy anywhere. LZY mobile solar systems integrate foldable, high-efficiency panels into standard shipping containers to generate electricity through rapid deployment generating 20-200 kWp solar. The Libreville Solar Photovoltaic Panel Supply Factory stands at the forefront, producing high-efficiency panels tailored to tropical climates. Did you know?

Gabon's solar capacity grew by 28% annually between 2020 and 2023, driven by government incentives and private-sector partnerships. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar energy while at the same time being compact in design, easy to transport and quick to set up. Located on the east coast, it has the advantage of being near ports, which facilitates the ease of exporting solar panels. It integrates advanced photovoltaic.
