

PIENAAR ENERGY (PTY) LTD

Load shifting guyana

Overview

Power China and Kalpataru will construct over 300 km of new transmission lines and five substations, enabling better power distribution nationwide. With growing electricity demand—over 13,000 new customers added in 2024—this project aims to meet future needs and reduce outages. Georgetown, Guyana - (J) Last week, the BBC Echo Vessel successfully berthed at the Muneshwers Shipping, John Fernandes and Guyana Shore Base Inc. Among the 16 transformers delivered were two units. The longstanding challenges experienced by the Guyana Power and Light (GPL) in the delivery of consistent electricity across the country will soon be over as the government inked US\$422. Delivered by UCC Holdings and operated by Karpowership, these floating power plants are designed to meet the country's rising. Today's edition unpacks major developments shaping Guyana's business landscape—from looming US tariffs and housing expansion to small-scale mining support and regional trade shifts.
