

## PIENAAR ENERGY (PTY) LTD

# Louis Port Telecom Energy Storage Cabinet Three-Phase Product Price

## Overview

---

The Port Louis energy storage system cost typically ranges between \$280/kWh to \$450/kWh for lithium-ion battery solutions, depending on scale and configuration. For example: Battery Technology: Lithium-ion dominates 80% of projects due to declining prices (12% drop since 2022). The power distribution unit provides a rack mountable power solution to server cabinet or telecom cabinet or other electronic devices at an affordable price. Individual outlet level power metering provides a view of the power distributed to equipment within the enclosure and the ability to analyze. Our energy storage cabinet, a 4th-generation innovation from 16 years of industry leadership, is tailored to industrial and commercial needs. It excels in peak shaving, virtual power plant participation, backup power provision, and three-phase unbalance management, offering customized overall. High security Using high-safety LiFe04 battery PACK partition safety isolation, built-in module-level fire protection unit, system-level fire protection unit, active safety early warning system to ensure safe and reliable operation of the system.
