

**PIENAAR ENERGY (PTY) LTD**

**Low-pressure type integrated energy storage cabinet for subway stations in kyiv**

HEAT DISSIPATION

Cold aisle containment,  
making optimal refrigeration effect;

## Overview

---

This 100KW 215KWH C&I BESS cabinet adopts an integrated design, integrating battery cells, BMS, PCS, fire protection system, power distribution system, thermal management system, and energy management system into standardized outdoor cabinets, forming an integrated plug-and-play. This 100KW 215KWH C&I BESS cabinet adopts an integrated design, integrating battery cells, BMS, PCS, fire protection system, power distribution system, thermal management system, and energy management system into standardized outdoor cabinets, forming an integrated plug-and-play. Multi-dimensional use, stronger compatibility, meeting multi-dimensional production and life applications High integration, modular design, and single/multi-cabinet expansion Zero capacity loss, 10 times faster multi-cabinet response, and innovative group control technology Meet various industrial. Discover AZE's advanced All-in-One Energy Storage Cabinet and BESS Cabinets - modular, scalable, and safe energy storage solutions. Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid. Liquid cooled outdoor 215KWH 100KW lithium battery energy storage system cabinet is an energy storage device based on lithium-ion batteries, which uses lithium-ion batteries as energy storage components inside. It has the characteristics of high energy density, high charging and discharging power. Low Costs:Modular design ESS for easy transportation, operations,and maintenance; All pre-assembled, no site installation. Our industrial and commercial energy storage systems cover a full range of products from 30kWh to 5MWh, including small integrated energy storage devices and.
