

PIENAAR ENERGY (PTY) LTD

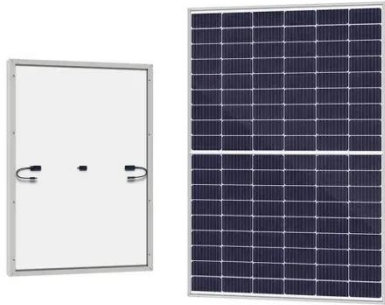

Madrid electricity distribution

Overview

Some of the major electrical distribution companies in Madrid include Endesa, Iberdrola, Gas Natural Fenosa, and Viesgo. The new strategy allocates up to €7.6 billion for the transmission network. The latter infrastructure must meet almost 28 GW extra demand through 2030, 14 times more than previously expected. At an event in Madrid, the government presented its new Electricity Transmission Grid Planning strategy to 2030, outlining a sweeping €16 billion investment package. Find detailed information on Electric Power Generation, Transmission and Distribution companies in Madrid, Spain, including financial statements, sales and marketing contacts, top competitors, and firmographic insights.

Madrid electricity distribution

Our infrastructures

We are tasked with ensuring that the transmission grid facilities are in optimal availability, reliability, and safety conditions to guarantee the power supply.
