

**PIENAAR ENERGY (PTY) LTD**

# **Ministry of Industry and Information Technology on Lithium-ion Batteries for solar container communication stations**

## Overview

---

The document covers aspects of the industry including use of revenue, utilisation rates of manufacturing facilities and minimum energy density requirements for lithium-ion batteries. [MIIT: Total Lithium Battery Production in China Reached 1,170 GWh in 2024, Up 24% YoY] On February 27, the Ministry of Industry and Information. New Regulations to Streamline Lithium-ion Battery Industry and Promote High-Quality Development On May 8th, according to a message on the website of the Ministry of Industry and Information Technology (MIIT), in order to further strengthen the management of the lithium-ion battery industry and. China's industrial regulator plans to launch a major document to guide the production capacity of lithium-ion batteries, which industry experts said will knock out a batch of low-end battery cells and accelerate the structural adjustment of the country's booming lithium-ion battery sector. The guidelines, following a proposal in May, will help firms scale.

## Ministry of Industry and Information Technology on Lithium-ion Bat

### China issues draft rules to regulate booming lithium battery

The proposals, issued by the Ministry of Industry and Information Technology, are intended to safeguard the healthy development of the lithium battery sector, the ministry said. The ...
