

PIENAAR ENERGY (PTY) LTD

Montevideo families need solar energy storage

Overview

That's where the Montevideo ERA (Energy Resilience Architecture) project steps in, blending photovoltaic systems with cutting-edge battery tech to keep the lights on 24/7. Uruguay's energy matrix looks like a sustainability dream - until you dig into the details. Montevideo, Uruguay's coastal capital, has become a testing ground for energy storage innovations that could reshape how cities use renewable power. With wind and solar supplying 98% of the country's electricity since 2022, you'd think they've solved the clean energy puzzle. Over the past five years, this coastal gem has attracted more renewable energy investments than São Paulo and Buenos Aires combined.
