LIQUID/AIR COOLING

ON GRID/HYBRID

PROTECTION IP54/IP55

BATTERY /6000 CYCLES

Overview

The Ministry of Land, Infrastructure and Transport said Tuesday it will launch a pilot program this month to directly certify the safety of electric vehicle (EV) batteries through a government-run certification system. The Myanmar battery market, valued at USD 1.1 billion, is growing due to renewable energy initiatives, EV adoption, and consumer electronics demand, led by lead-acid and lithium-ion types. 1 billion, based on a five-year historical analysis. 54 billion by 2025, anticipates strong growth with a CAGR of 17.9% during the forecast period (2025-2033). Batteries play a crucial role in various industries, including automotive, electronics, and renewable energy. As the country's economy continues to develop and the demand for reliable power sources increases, the battery. Battery Market in Myanmar is Segmented by Battery Technology (Lead Acid Battery, Lithium-ion Battery, and Other Battery Types), and Application (Automotive, Industrial, Consumer Electronics, and Other Applications (Medical Devices, Power Tools, and Defense, etc. Image © Mordor Intelligence).
