

PIENAAR ENERGY (PTY) LTD

No-degradation energy storage battery

Overview

China's CATL – the world's largest EV battery producer – has launched TENER, which is described as the "world's first mass-producible energy storage system with zero degradation in the first five years of use. Featuring greater safety, five-year zero degradation, and a robust 6.25MWh Tener battery energy storage system (BESS) unveiling in April made.

No-degradation energy storage battery

TENER's Pioneering Renewable Energy Battery Storage Solution: ...

Overall, CATL's TENER Battery emerges as a pioneering solution in the energy storage realm, marking a significant milestone towards sustainable and long-lasting energy storage systems.
