# **Norway energy storage lithium battery assembly plant**

## Overview

---

Elinor Batteries plans for a giga-scale battery factory near Trondheim, Norway. Based on 100% renewable energy and nordic mineral resources, the factory will supply sustainably produced batteries to the European Energy Storage market. 5 billion crowns (\$134 million), government agency Innovation Norway said on Tuesday. The Norwegian company opened the Nordic country's first battery cell plant in August and has said it plans to expand. The Prime Minister of Norway, Jonas Gahr Støre, officially inaugurated the Morrow Batteries gigafactory in Arendal, Norway. This plant, the first of its kind in Europe, is a significant step towards consolidating the region as a leader in the production of lithium iron phosphate (LFP) batteries.
