

PIENAAR ENERGY (PTY) LTD

Norwegian solar container lithium battery solar street light

Overview

To maximize safety and cost-efficiency when importing solar street lights, buyers must utilize Knocked Down (KD) packaging designs to optimize container volume and ensure UN38.3 compliance for lithium battery transport. Our battery solutions are designed to combine reliable performance, efficient energy use, and long-term durability. Solar. The 500W Solar Street Light is equipped with 360 LED chips, providing high brightness and a wide beam angle (85°-145°), ensuring optimal illumination across a large area for enhanced safety and security. Prewired turn-key kits with Bluetooth technology for smartphone viewing of system data are easy to. Lithium Batteries are most suitable for solar street light application, due to its light weight, compact structure. LFP chemistry can withstand at high temperature condition with higher life cycle. If your product does not have a hazardous characteristics classification identification.
