

## **PIENAAR ENERGY (PTY) LTD**

# **Off-grid photovoltaic containerized systems for European farms**

**2MW / 5MWh  
Customizable**

## Overview

---

Recent pricing trends show standard 20ft containers (500kWh-1MWh) starting at \$180,000 and 40ft containers (1MWh-2.5MWh) from \$350,000, with flexible financing including lease-to-own and energy-as-a-service models available. This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations. Unlike standard solar panel containers, LZY's mobile unit features a retractable solar panel unit for quick installation. Folding. Now, with the SCU energy storage system, customers can store excess photovoltaic power during the day and release it in the evening, when electricity demand is at its peak or prices are higher, thereby shifting demand. The lightweight. Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no shading from a remaining container structure. Solarcontainers have a tailored system with a mobile.
