Off-grid solar system price trends

 **LFP 48V 100Ah**

Overview

As of early 2026, the global average installed price for high quality off grid systems has stabilized between \$350 and \$550 per kilowatt hour. Building your own off-grid system offers the potential for significant cost savings, primarily on labor. Off-grid solar systems cost an average of \$45,000-\$65,000. Read our guide to determine whether this expense is worth it for your home. Clicking “Get Your Estimate” submits your data to All Star Pros, which will process your data in accordance with the All Star Pros Privacy Policy. To put this in perspective, just four years ago in. Off-grid solar has become the primary electrification pathway in regions where grid extension proves economically unfeasible, with the sector accounting for 55% of new connections in Sub-Saharan Africa from 2020-2022. This work has grown to include cost models for solar-plus-storage systems. NLR's PV cost benchmarking work uses a bottom-up.
