

## **PIENAAR ENERGY (PTY) LTD**

# **Operation time of energy storage power station in gothenburg sweden**

## Overview

---

The project is specifically geared towards providing Fast Frequency Reserves (FFR) services, employing technology capable of responding in an exceptionally short time, with maximum power attained within 0.7 seconds, addressing rapid frequency changes. **1MW/1MWh Project Highlight**

Gothenburg, Sweden's second-largest city and a Nordic industrial hub, demands substantial electricity for its extensive industrial parks, shopping centers, and office complexes. CNTE's Commercial and Industrial (C&I) energy storage system, now operational in the city. **Summary:** Gothenburg's new energy storage project addresses renewable energy challenges through cutting-edge battery systems. This article explores the project's technical breakthroughs, latest milestones, and how large-scale battery systems are transforming renewable energy.
