

**PIENAAR ENERGY (PTY) LTD**

# **Outdoor energy storage in Spain**

## Overview

---

Spain authorizes more than 3,400 MW in energy storage, marking a rebound after the blackout and consolidating solar and battery hybridization. Current market valuation estimates place revenues in the range of several hundred million euros, with a. The Spanish energy agency has proposed funding for 144 energy storage sites totaling 2.14 GWh under a European Regional Development Fund program. Learn about solar integration, cost-saving opportunities, and real-world applications in this detailed guide. Spain's abundant sunshine - averaging 2,500-3,000 hours annually -. Spain's Ambitious Energy Storage Initiative Spain is charging ahead with one of Europe's most ambitious energy storage initiatives! The country's groundbreaking battery storage program has exceeded its original €700 million budget, growing to €840 million (\$964 million) to support a massive storage. Global energy storage capacity was estimated to have reached 36,735MW by the end of 2022 and is forecasted to grow to 353,880MW by 2030. Spain had 88MW of capacity in 2022 and this is expected to rise to 2,500MW by 2030.
