# **Paraguay s power grid energy storage policy subsidies**

## Overview

---

Paraguay's new Ley de Almacenamiento Energético offers tax breaks covering 30% of storage system costs. Plus, there's this neat twist—projects using locally sourced materials get priority grid connection. Smart move for a country sitting on one of the world's largest lithium. Paraguay has launched an ambitious energy policy, targeting a diverse, sustainable energy mix by 2050. Focusing on solar, hydrogen fuel, and biofuels, the country aims to secure energy independence and reduce reliance on hydrocarbons. The Paraguayan government unveiled a transformative energy. On September 19, Decree No. The Decree sets out an energy policy plan for Paraguay with a long-term outlook until the year 2050, addressing the need for innovation considering current challenges in. Here's the kicker - the 2025 subsidies could cover up to 30% of installation costs for qualified projects. That's like getting a Black Friday deal on your personal power grid! This year's incentives aren't your grandpa's tax breaks. The solution?

Well, it's not building more dams - that ship has sailed. To highlight the policies necessary for zero-emissions decarbonization of energy-use sectors in Paraguay, this re-port introduces three scenarios for Paraguay's final energy demand matrix from 2018 to 2030, 2040, and 2050 based on the freely available.
