Philippines Energy Storage Project Phase

Overview

A large-scale solar and battery energy storage project in the Philippines is moving forward faster than expected, with 54% of the first phase completed just eight months after construction began. SN Aboitiz Power (SNAP), Scatec ASA's joint venture with Aboitiz Renewables, has reached financial close and is preparing for construction start of the 40 MW Binga (phase 2) and 40 MW Ambuklao battery energy storage systems (BESS). The 778 MW of solar installed so far makes it the largest solar installation in the country.
