

PIENAAR ENERGY (PTY) LTD

Photovoltaic energy storage container for tourist attractions 250kW

Overview

As a standardized “energy package,” each container provides 250kW/430kWh, and up to five units can be paralleled, enabling capacity expansion from 100-1000kW / 200-2000kWh. This containerized ESS supports peak shaving, backup power, electricity cost reduction, and power. The BSI-Container-20FT-250KW-860kWh is a robust, turnkey industrial energy storage solution engineered for rapid deployment and high-density energy performance. Housed in a 20-foot container, this system integrates solar PV, energy storage, and advanced control components into a single unit, making. Bypass cabinet is designed to be used together with bidirectional battery inverter and PV inverter to realize seamless transfer between on and off grid mode automatically. The energy storage standard module consists of 60 single cells, each unit power is 14. 3kWh, the nominal voltage is 51. 2V. converters, energy management monitoring systems, power distribut quision of local load power, photovoltaic power generation priority is self-generation and self-use, and surplus electricity stora . Product description□The container integrated system solution with one stop service.

Photovoltaic energy storage container for tourist attractions 250kW

BSI-Container-20FT-250KW-860kWh

With a power output of 250KW and 860kWh of lithium battery storage, this system is designed for intensive operations where space, mobility, and reliability are top priorities.
