

**PIENAAR ENERGY (PTY) LTD**

**Photovoltaic integrated energy storage cabinet fixed type agreement**

## Overview

---

This Term Sheet is intended to set forth the key commercial terms and conditions to be included in a proposed agreement for the purchase and sale of renewable energy and energy storage product (the “PPA”) to be negotiated between SDCP (“Buyer”) and [e., Project Company. and inspiration to utilize EECBG funding in the areas of energy planning, energy efficiency, renewable energy, transportation electrification, clean energy finance, and workforce development, including several high-level key activities. These key activities are suggested steps EECBG Program. To facilitate the growth of the industry, SEIA maintains and promotes standardized contracts for a variety of different solar transactions. Initially developed under the Solar Access to Public Capital (SAPC) working group led by the National Renewable Energy Laboratory, the following model. There are three key types of procurement contracts—power purchase agreements (PPAs) or energy storage services agreements; engineering, procurement, and construction Our standard contracts and securitization resources include example contracts, operation and maintenance guides, and a mock filing. THIS RENEWABLE GENERATION AND ENERGY STORAGE TERM SHEET (the “Term Sheet”) is entered into as of [\_\_\_\_\_] (the “Effective Date”), between San Diego Community Power (“SDCP”) and [Respondent] (“Respondent”). Equipped with a robust 15kW hybrid inverter and 35kWh rack-mounted lithium-ion batteries, the system is seamlessly housed in an IP55-rated cabinet for enhanced protection. icts with a fixed or variable interest rate over a predetermined term. With loans, organizations can spread out the upfront costs of the project over time while retaining ownership of the system.
