

PIENAAR ENERGY (PTY) LTD

Photovoltaic panels for pools

Overview

Solar pool heating systems offer significant advantages compared to gas or electric pool heaters. They are more environmentally friendly, require less maintenance, and have a lower operating cost. While a backyard pool can be refreshing on a hot summer day, water that's too cold can be downright shocking, which is where a solar pool heater can come to the rescue. Since solar-powered pool heaters require no electricity and can be installed by a DIYer, they offer an economical means of warming. This has been one of the coolest springs on record. Looking forward to getting the most of solar's benefits. Consider financial incentives, pool covers, and.
