

PIENAAR ENERGY (PTY) LTD

Photovoltaic panels wrapped around the roof

Overview

Building-integrated photovoltaics (BIPV) provide a solution by combining waterproofing and energy generation within solar-integrated roofing. By embedding solar technology into shingles or tiles, BIPV eliminates many drawbacks of traditional systems. Install a mounting system for solar thermal or solar photovoltaic panels. You run. Professional Installation is Critical for Safety and Warranties: Solar panel mounting involves working at dangerous heights with structural modifications that can void warranties if done incorrectly. Professional installation typically includes 5-25 year warranties and ensures compliance with 2025. These are small solar panels that can be integrated directly into the roof, creating a more discreet and aesthetically pleasing solar system.
