

**PIENAAR ENERGY (PTY) LTD**

# **Photovoltaic support business license**

## Overview

---

For states requiring licenses, you'll often need a plumbing or electrician license, or both. With the tremendous growth of solar installations and the continuing evolution of licensing requirements for photovoltaic and solar installers, IREC's National Solar Licensing Database provides information and references to the licensing, certification, and other requirements impacting the solar. Some states mandate a dedicated solar contractor license, while others require an electrical or general contractor license to perform solar PV installations. To become NABCEP-certified. A solar license refers to a certification homeowners or solar panel companies obtain to complete solar installations. This license demonstrates the holder has the necessary knowledge, skills, and qualifications to work with rooftop Photovoltaic (PV) systems safely and effectively.
