

PIENAAR ENERGY (PTY) LTD

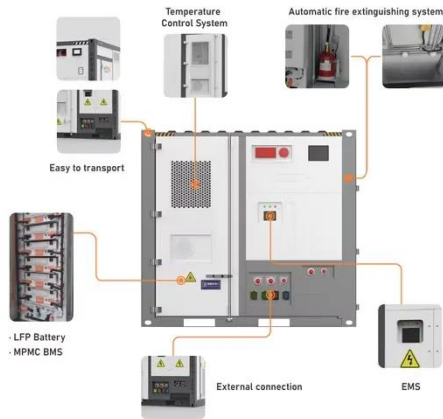

Photovoltaic support steel sales point

Overview

Steel remains the most widely used material in solar photovoltaic support structures, accounting for 78% of global installations according to 2023 market data. Let's break down its advantages: Attala Steel Industries specializes in high volume, high quality, low cost posts for PV solar projects. The foundations for any project are key to its success. Because our customers, mostly EPCs and construction. Our company stocks the largest inventory of galvanized structural steel products in the Gulf Coast, and our team can also have your structural steel tracker system parts galvanized with a 24-hour turnaround. Each product complies. Download the flyer FlexRoof 3.
