

PIENAAR ENERGY (PTY) LTD

Prefabricated Pile Photovoltaic Support Manufacturer

Overview

Professional steel helical pile foundations for solar installations. The helical pile length can be adjusted to any desired mounting elevation. Top mounting plates can be custom designed to the application requirement. These deep foundation systems transfer loads from solar panel arrays through weak surface soils to stronger bearing strata below, ensuring long-term structural integrity. Unimacts provides a diversified supply chain consisting of low cost and low lead time production centers, both domestically and internationally. -made solar racking and solar. With all of the solar industry companies striving to reduce the cost per watt, PACO Steel and Engineering is providing another smart solution to meet the challenge.

Prefabricated Pile Photovoltaic Support Manufacturer

Solar Foundations

MacLean Power Systems offers a wide range of steel helical piles for supporting solar panels. The helical pile length can be adjusted to any desired mounting elevation.
