

## PIENAAR ENERGY (PTY) LTD

# Processing agreement for wind blade power generation components

## Overview

---

This article provides an overview and introduction to project agreements that typically exist, from the owner's perspective, and are managed during the Operational phase of a wind project., access roads, foundations, crane pads, substations, transmission lines, and. This note focuses on actions a project sponsor or developer of a wind power project can take to help manage the social and environmental risks associated with assembling key components of wind turbine generators (WTGs). During the development phase, the Turbine Supply. The U. Global manufacturing capacity for wind turbines has doubled since 2008, and worldwide installations of wind power reached new highs in 2012, adding more than 46 GW of capacity to electric grids (BNEF 2013).

■■■■ ■■■■ ■■■■ ■■■■, ■■■ ■■■■ (hereinafter "Contractor") and Enerserve Limited Registered number: E.
