

**PIENAAR ENERGY (PTY) LTD**

# **Ranking of new energy downstream energy storage companies**

## Overview

---

Drawing from the latest 2025 rankings by Solar Power World—adapted for BESS expertise based on hybrid solar-storage portfolios and project pipelines—this list spotlights the top 15 global leaders by 2024 DC kW installed (a key proxy for BESS scale). It involves companies that develop technologies to store energy for later use, enhancing grid reliability and efficiency. Firms in this sector range from battery manufacturers to innovative technology creators, offering solutions like lithium-ion batteries, flow batteries, and even novel. As the world races toward net-zero emissions, Battery Energy Storage Systems (BESS) stand as the linchpin for integrating renewables into stable, resilient grids. Projections indicate that global BESS capacity will exceed 500 GWh by the end of 2025, fueled by surging demand for frequency. Including Tesla, GE and Enphase, this week's Top 10 runs through the leading energy storage companies around the world that are revolutionising the space. Whether it be energy that powers smartphones or even fuelling entire cities, energy storage solutions support infrastructure that acts as a. The race to develop efficient and scalable energy storage systems has never been more crucial. With renewables now supplying over 35% of global electricity, the demand for reliable energy storage systems (ESS) has turned battery makers into rockstars. But how do we separate the. include the Powerwall and Powerpack batteries. Sonnen 's mission is to provide its consumers with cle n e part of its highly efficient energy portfolio. Hecate Energy Hecate Energy develops, owns.

## Ranking of new energy downstream energy storage companies

---

### Top 21 Energy Storage Companies

As the world transitions to clean energy, the industry is poised for significant growth, with investments flowing into new technologies aimed at improving storage capacity and sustainability.
