

PIENAAR ENERGY (PTY) LTD

Renting rooftop solar panels in rural areas

Overview

While most homes will be too small to make renting a roof worth the investment, warehouses, larger commercial structures or even some farms can generate enough kilowatt hours of solar energy to provide a reliable source of recurring revenue. Our mission is to transform underutilized farm rooftops in rural areas into sources of clean, renewable energy. OroVolt is committed to advancing clean energy solutions through innovative solar technology and community-focused initiatives. As solar incentives become more lucrative and state renewable energy mandates increase, solar developers and land owners are taking advantage of this opportunity by developing community solar and solar. Solar rooftop leasing is one of the three basic ways you can make money from your rooftop with solar energy. How Does Renting. We use Google Earth imagery to analyze your roof shape and local weather patterns to create a personalized solar plan. Compare loan, lease, and purchase options for your solar.
