

**PIENAAR ENERGY (PTY) LTD**

# **Rome s reliable energy storage container integrated system**

## Overview

---

The whole 10 MWh BESS (Battery Energy Storage System) is fully integrated with “Solar Farm”, the largest self-consumption photovoltaic system in a European airport, designed by ENEL in conjunction with Cincet for Aeroporti di Roma, built and integrated by Lccioniby. The whole 10 MWh BESS (Battery Energy Storage System) is fully integrated with “Solar Farm”, the largest self-consumption photovoltaic system in a European airport, designed by ENEL in conjunction with Cincet for Aeroporti di Roma, built and integrated by Lccioniby. 10 MWh energy storage system repurposes 762 end-of-life EV batteries, supporting peak power needs and decarbonization. Expected CO<sub>2</sub> reduction of 16,000 tons over the next decade—supporting Fiumicino's Net Zero by 2030 target. Europe's largest airport solar-battery integration, boosting energy. Mercedes-Benz Energy is helping to enhance the energy efficiency of Rome Fiumicino Airport with its battery storage solutions. The amount of renewable energy capacity added to energy systems around the world grew by 50% in 2023, reaching almost 510 gigawatts. In this rapidly evolving landscape, Battery Energy Storage Systems (BESS) have emerged as. A container battery energy storage system (BESS)—also known as containerized battery storage—is a pre-assembled, modular solution designed to store and deliver electrical energy using lithium-ion or other advanced battery chemistries. Let's unpack why companies are racing to deploy modular, shipable solutions across the peninsula. Italy's National Recovery and Resilience Plan allocated.

## Rome's reliable energy storage container integrated system

### Rome's Fiumicino Airport Unveils Europe's Largest EV Battery Energy

Europe's largest airport solar-battery integration, boosting energy resilience and circular economy leadership. Rome's Fiumicino International Airport has launched Pioneer, Europe's largest ...
