

PIENAAR ENERGY (PTY) LTD

Solar bracket installation cost study

Overview

On average, homeowners might spend between \$100 to \$300 per bracket, leading to a total installation budget heavily dependent on several factors: number of brackets, type of solar panels, and local labor rates. NLR analyzes the total costs associated with installing photovoltaic (PV) systems for residential rooftop, commercial rooftop, and utility-scale ground-mount systems. This work has grown to include cost models for solar-plus-storage systems. NLR's PV cost benchmarking work uses a bottom-up. Each year, the U. Department of Energy (DOE) Solar Energy Technologies Office (SETO) and its national laboratory partners analyze cost data for U.
