

PIENAAR ENERGY (PTY) LTD

Solar container communication station battery module manufacturers

Overview

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and commercial applications. Fast deployment in all climates. Our products are engineered and manufactured in the UK, ready to generate and provide electrical power at the client's premises anywhere in the world. Access to a parts supply chain means that systems can be built quickly, efficiently and without compromise in the UK. By delivering clean, accessible electricity, we support sustainable communities and contribute to a healthier. MOBIPOWER containers are purpose-built for projects where energy demands go beyond what a trailer can deliver. These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells — with optional diesel redundancy when regulatory or client. Each system integrates solar PV, battery storage, and optional backup generation in a modular, pre-engineered platform that is scalable for projects ranging from 5kW to 5MW+. Battery Backup Unit The Green Cubes Guardian Battery Unit (GBU) is a 48V 19" rack-mountable Lithium ion Battery Backup Unit designed to be used with any power system. The GBU Series is designed for d.
