

PIENAAR ENERGY (PTY) LTD

Solar energy storage project in france

Overview

RWE has expanded its renewable energy portfolio in France with the commissioning of a new solar plant in Sourdun, Seine-et-Marne. The 16-megawatt (MW) facility, coupled with a 4 MW battery storage system, will generate enough clean electricity to power approximately 9,000. Neoen has initiated construction of three new solar farms in France with a combined capacity of 230 MWp, all scheduled to become operational by 2028. The projects include the Le Couret agrisolar project with a capacity of 147 MWp in the Haute-Vienne department, along with the Isle-sur-Marne solar. Neoen, France's leading independent producer of exclusively renewable energy, has provided Bouygues subsidiary Equans Solar & Storage with notices to proceed for three solar farms and two 225 KV substations which will connect to the RTE network, thereby signaling the start of construction. Neoen. Independent solar energy producer Amarenco has launched the repowering of a 105-MW/100-MWh battery energy storage system (BESS) in Saucats, France, which will be upgraded from one to two hours of storage. 2026 - Axpo subsidiary Urbasolar has begun construction of Europe's largest single-span rooftop solar system. The project, developed for European renewable energy producer Kallista.
