

PIENAAR ENERGY (PTY) LTD

Solar energy storage station in Syria

Overview

Syria's ministry of electricity has announced a new 100-megawatt photovoltaic power station to be built to tackle the nation's energy crisis, following over a decade of unrest and economic uncertainty in the country. This project is part of Syria's broader strategy to diversify its energy sources and. Post-sanctions Syria eyes energy shift, and inks MoU for 200 MW solar and storage projects. (Illustrative Photo; Photo Credit: ZHMURCHAK/Shutterstock. The number of hours of sun a year varies from 2,820 to 3,270. This makes the region well-suited for solar energy harnessing. This report was produced as part of the second round of Al-Jumhuriya's Grant Program for Syrian Women Journalists, which supports the production of in-depth journalistic projects related to topics of public interest in Syria or Syrian diaspora communities.

Syria's Energy Crossroads: How Storage Systems Could Power a

Well, there you have it - Syria's energy future isn't about choosing between survival and sustainability. With smart storage solutions, it can achieve both simultaneously.

[Get Price](#)

 **Efficient**
Higher Revenue

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPP Trackers, 150% DC Input Overvoltage
- Max. PV Input Current 15A, Compatible with High-Power Modules

 **Intelligent**
Simple O&M

- IP65 Protection Degree: support outdoor installation
- Smart IV Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

 **Flexible**
Abundant Configuration

- Plug & Play, EPS Switching Under 30ms
- Compatible with Lead-acid and Lithium Batteries
- Max. 6 Units Inverters Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation

Syria Boosts Renewable Energy with New 100-Megawatt Solar Plant

Syria is building a 100-megawatt solar power station near Damascus to boost its renewable capacity. Learn how this project enhances energy security and sustainability.
