

PIENAAR ENERGY (PTY) LTD

Solar foldable container refrigeration system

Overview

Sustainable, off-grid refrigerated containers designed to extend the shelf life of perishable goods, reduce waste, and empower businesses and farmers with cost-effective cold storage solutions—anytime, anywhere. We make mobile solar containers easy to transport, install and use. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. What is LZY's mobile solar container?

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations. The most cost-effective off/grid power solutions for your remote projects. Our cold rooms run entirely on solar energy, reducing electricity costs and ensuring. The Aldelano Solar ColdBox™ is an industrial-grade, portable, solar-powered cold storage mini-warehouse that provides a completely renewable power source, refrigeration and freezing capacity, as well as water and ice production by utilizing molecules from the air and the power of the sun.

Solar foldable container refrigeration system

Lithium Solar Generator: \$150

Aldelano Solar ColdBox Solar-powered Refrigerated Container

The Aldelano Solar ColdBox(TM) is an industrial-grade, portable, solar-powered cold storage mini-warehouse that provides a completely renewable power source, refrigeration and freezing capacity, ...
