

PIENAAR ENERGY (PTY) LTD

Solar inverter industry fraud

Overview

Recent investigations reveal 18% of commercial solar installations use manipulated inverters that overreport production by up to 29%. This isn't just about lost kilowatt-hours – it's a \$2.3 billion annual fraud undermining renewable energy's credibility. But with this expansion, has come an increasing number of disgruntled solar customers that are posting bad reviews about solar companies online, filing complaints with agencies such as the Better Business Bureau (BBB), state consumer protection departments and Attorney Generals, and even taking. NPR reported on how the solar industry is repairing its reputation and what to watch out for when shopping. Odds are you've even encountered one of these high-pressure salespeople at your own home. "Well, everybody wants a. Scammers across the U. Many homeowners never get any solar equipment installed; those who do often get shoddy work. At the same time, federal and state regulators have received an increase in consumer complaints about a small number of unscrupulous solar companies.
