Solar inverter no grid alarm

Overview

Learn why your Solis inverter displays a NO-GRID error and how to troubleshoot it effectively. One of the main reasons this fault may appear is an incorrect grid code being set. A power outage or interruption in the local grid. Tripped AC circuit. I have Solis inverter RHI-5K-48ES-5G and 3 Pylontech US3000C batteries installed in loft last summer with 12 JA solar panels. After recently installing new datalogger (S3-WIFI-ST) and using "control inverter" from SolisCloud to set charging time 03:00 - 06:00 from grid, The system immediately. Had solar and a battery installed for 6 months now and it's been perfect.

Solar inverter no grid alarm

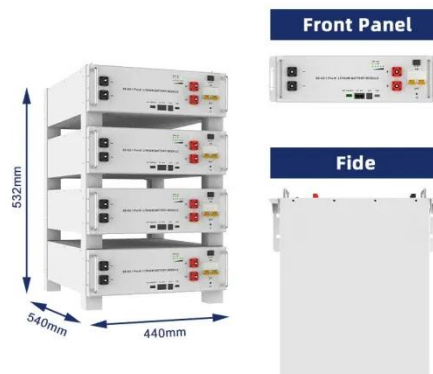

Solis inverter no-grid alarm. SolisCloud "Inverter control" problem

Maybe something not right about the control inverter module added to SolisCloud? So currently I cannot switch on grid to the inverter without it tripping shortly after.
