# **Solar panels in Bamako**

## Overview

---

This analysis provides insights into each city/location's potential for harnessing solar energy through PV installations. [Link: Solar PV potential in Mali by location.](#) Bamako, Mali (coordinates 12. 9989 longitude) is a prime location for solar photovoltaic (PV) power generation owing to its consistent sunlight exposure all year round and clear demarcation between wet and dry seasons. The average yield per kW of installed solar capacity in this. Mali has opened its first solar panel manufacturing plant, a facility fully owned by Malians. With an. GSOL supplied a pre-assembled containerized solar system from our workshop in Denmark and when the container arrived in Bamako, the system was up and running in a very short time. Due to lack of ground space, all the available rooftops were utilized for the solar panels. Reduce your electricity bills significantly. Lower your carbon footprint and combat climate change. A story of how Africa's clean energy transition can fuel the African Continental Free Trade Area (AfCFTA), and by extension, reshape.
