Solar panels on Zhuangzitou Mountain

Overview

After filling deserts and plains with solar panels, the Asian giant now covered an entire mountain with 95,648 photovoltaic modules. This ambitious project not only generates clean energy but also revealed a surprising additional benefit. The addition to the. A drone video that recently went viral on social media showed the incredible scale of a solar power plant in China's Guizhou Province. Located on the slope of a mountain in Lishui, Zhejiang. China has pioneered large-scale solar panel installations across mountainous terrains, transforming previously underutilized slopes into vast clean energy hubs.
