

PIENAAR ENERGY (PTY) LTD

Solar panels produced in Africa

Overview

Africa recorded its highest-ever solar capacity additions in 2025, with a 54% year-on-year increase, led by South Africa and Nigeria. 6 GW, Nigeria 803 MW and Egypt 500 MW, while distributed solar accounted for nearly 44% of new capacity. Several companies across Africa are leading the charge in solar panel manufacturing and deployment. The. At present, she works with Energy in Africa, where she covers electricity, power, and renewable energy trends across the continent. Every day, we handpick the biggest stories, skip the noise, and bring you a fun digest you can trust. 57 GW —roughly three-quarters of the Hoover Dam's capacity. Twenty countries set new highs, with Nigeria overtaking Egypt for second. New Global Solar Council report shows solar deployment spreading across more African countries, increasingly driven by distributed systems and rising demand for reliability — while financing gaps threaten to slow momentum.
